

Fall Parent Association Lecture

Wednesday, October 23 at 6:30pm

A BWS Parent Education Lecture with family educator **Meaghan Witri** and complementary health practitioner **Sarah Hearn** on **Social Understanding: Gender and Sexuality in the Developing Child.**

Children pass through different stages of consciousness as they grow. We will consider how and when to work with children regarding sexuality and gender throughout the developmental stages of early childhood and the grades, including how to talk with our children about these themes and the depth and progressive understanding Waldorf education brings to these questions. There will be time for discussion.

A FREE event for BWS parents. Lecture being held in Main Building.
